

We offer you an API endpoint that you can quickly plug your existing system into our bulk SMS platform and seamlessly send messages to your clients with less hustle.

Base URL:

The base URL for making API calls is:

```
https://sms.blessedtexts.com/api/sms/v1
```

Send SMS

To send messages, make a **POST/GET Request** to this API endpoint:

```
https://sms.blessedtexts.com/api/sms/v1/sendsms
```

Request Parameters

Parameter	Type	Mandatory	Description
api_key	String	Yes	Your API key. Get it from your Profile .
sender_id	String	Yes	This must be a sender ID already assigned to you e.g. 23107
message	String	Yes	The message to be sent to the recipient(s). NOTE: It is only mandatory if not sending multiple messages.
phone	String	Yes	The phone number(s) to receive the message. It should be in any of the these formats; 722XXXXXX, 0722XXXXXX, or 254722XXXXXX. It can be one or many. If many, they should be comma-separated e.g. 254721XXXXXX,722XXXXXX,0723XXXXXX. NOTE: It is only mandatory if not sending multiple messages.
messages	Array	Yes	This is only mandatory if sending different messages to different phone numbers (multiple messages in one request). Each item in the messages array should be an array of message and phone.
attachment	File	No	Attachment (if any) to be included in the message.

Sample POST Request

```
POST https://sms.blessedtexts.com/api/sms/v1/sendsms
Content-Type: application/json
Accept: application/json
{
  "api_key": "YOUR_API_KEY",
  "sender_id": "23107",
  "message": "Hello world!",
  "phone": "254721XXXXXX,254722XXXXXX"
}
```

Or when uploading an attachment

```
POST https://sms.blessedtexts.com/api/sms/v1/sendsms
Content-Type: multipart/form-data
Accept: application/json
{
  "api_key": "YOUR_API_KEY",
  "sender_id": "23107",
  "message": "Hello world!",
  "phone": "254721XXXXXX,254722XXXXXX",
  "attachment": "@path/to/your/file"
}
```

Or when sending multiple messages

```
POST https://sms.blessedtexts.com/api/sms/v1/sendsms
Content-Type: application/json
Accept: application/json
{
  "api_key": "YOUR_API_KEY",
  "sender_id": "23107",
  "messages": [
    {
      "phone": "254721XXXXXX",
      "message": "Hello John"
    },
    {
      "phone": "254722XXXXXX",
      "message": "Hello Jane"
    }
  ]
}
```

Sample GET Request

```
GET https://sms.blessedtexts.com/api/sms/v1/sendsms?api_key=YOUR_API_KEY&sender_id=23107&message=Hello&phone=254721XXXXXX
Content-Type: application/json
Accept: application/json
```

Sample Response Body

```
[
  {
    "status_code": "1000",
    "status_desc": "Success",
    "message_id": "6496cc3d541ef1095088440",
    "phone": "254722XXXXXX",
    "message_cost": "0.5"
  }
]
```
